

New Rates in Effect July 1—Dec. 31

The One Less Truck Project project will test different ways to set charges if the every-other-week garbage collection were to be implemented city-wide. This allows SPU to most accurately collect data about possible customer adjustments to subscription levels with the change in service and to see how the two rate structures compare.

Rates for this project will show up in your August bill and end after your February 2013 bill.
